HOW TO TAKE THE PSE READI ASSESSMENT

Follow these 6 simple steps to take a PSE READI:

1. **Log in:** Go to http://psereadi.org, and click “Login” at the top of the page.

2. **Create an account:** First time users can click on “Create Account” under the log in field, and fill out the registration form. Clicking “Submit” will log you into your new account.

3. **Select the PSE READI you’d like to take:** Once logged in, click “My Account” at the top left corner of the page. Here, you can choose to take a PSE READI from the four topic areas.

4. **Create a profile for your PSE READI:** Think about a specific target area or community you’d like to assess with your PSE READI. Choose your PSE area of choice, decide whether you’d like to take it as an individual or a team, then click “Submit” to start your assessment.

5. **Take the PSE READI:** Assessments take about 15-25 minutes to complete. As there are no right or wrong answers, select the best answer for each question. For team assessments, each team member will take their own assessment. All assessment answers are confidential and anonymous.

6. **Access your assessment report:** Your customized report with three tailored recommendations, supporting resources and county level information will immediately be generated after completing an individual assessment. For team assessments, team leads must generate their team’s report. You can access reports at any time by clicking on “My Account”, then clicking on your assessment’s name.

The Building Capacity for Obesity Prevention (BCOP) project is a partnership between Case Western Reserve University, Prevention Research Center for Healthy Neighborhoods; The Ohio State University, SNAP-Ed program; and the Ohio Department of Health, Creating Healthy Communities program. BCOP is supported by a grant from the U.S. Department of Agriculture (G-1819-17-0539). This document does not reflect the official views or policies of the U.S. Department of Agriculture.
